

TECH TRANSFER

CONTEST

GET SPACE INSPIRED

Propose your application presenting space technology used in non-space sector

- Get inspired or use the [ESA Space Patents Database](#) as a source of technological innovations in space
- The space innovation used in the project proposal does not have to come from the ESA database, any know-how that has been used in space or has been developed primarily for space applications can be used
- Apply no later than **25. 11. 2022** by submitting your application consisting of cover letter, application form and any attachments to SparkFunding@tc.cz
- Find more information and application form [here](#)
